

An Additional Remark about the
Torture Claims Appeal Board's Decision

By: EL Bourichi Adil

15. In remark 13 of **Exhibit B** (Remarks about the Torture Claims Appeal Board's Decision), I attributed the Board's neglect of the possibility that I may be forcibly placed in a psychiatric hospital in Morocco and mistreated there, and the other irregularities in the Board's decision, to the difficulty and unusualness of my case, not to a possible pressure exercised on the Board by some corrupt official who received money or other benefits from the Moroccan regime in exchange for allowing that I would be sent back to Morocco and forcibly placed in a mental institution, using an apparently legal process.

In light of that remark, I started an online petition today, 16 April 2025, on change.org, in which I urged the Government of the People's Republic of China to advise the young crown prince of Morocco, a 21 years old young man, in a way that would make him a good leader who is committed to respecting the values of democracy and freedom, instead of falling prey to reckless thoughts like wanting Moroccan non-refoulement claimants in Hong Kong, like me, to be deported to Morocco, where they could face torture and even death. The text of the petition is submitted along with this remark in **Exhibit J**.

I also want to notify the Court that I have no intention of making a request to withdraw my application for leave to apply for judicial review and that, in the case that the Court receives such a request, then that means that my signature had been forged to make that request and, in that case, I request that an investigation is made to identify the person or the persons responsible for forging my signature.
