## The Issue

We, the signers of this petition, urge the Government of the People's Republic of China to remain faithful to democracy and freedom and to urge Morocco to respect the freedom of Moroccans and their rights, especially the rights to life and not to be subjected to torture, cruel, inhuman or degrading treatment or punishment.

Given the king's health and the young age of the crown prince of Morocco, it is normal for the crown prince, a young man of 21 years old, to act rashly and want some Moroccan non-refoulement claimants in Hong Kong, to be deported to Morocco, where they could face torture and even death. The Government of the People's Republic of China is expected to advise the crown prince in a way that would help him to become a good leader in the service of democracy and freedom, instead of falling prey to reckless thoughts that could endanger the future of Morocco and hurt the friendship between China and Morocco and the mutual interests of the Chinese and Moroccan peoples.
